

## Poker 3 Keno

### HOW TO PLAY

Player begins by marking 3 spots from 1 to 49 or selecting Quick Pick. Player must also fill in one spot in the 'Amount Wagered' area to determine how much he wishes to wager on this particular hand and one spot in the 'Consecutive Games' area to determine how many consecutive games he wishes to play with this hand at this wager. The player may optionally mark the 6-Card Bonus check box and/or the Pair Plus check box.

If the Player's hand outranks the Dealer's hand AND is at least a Queen-Jack High, the Player's base wager will win even money.

If the Player makes the optional wagers, he will be paid based on the rank of his 3-card hand for the 3-Card Bonus or the rank of the combined 6-card hand (Player and Dealer 3-Card Hands) for the 6-Card Bonus.
